## DETAILED ACTION

### ***EXAMINERS AMENDMENT***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Mattingly on June 22, 2006.

The application has been amended as follows:

***Please replace the abstract with:***

-- When data in the first primary volume is migrated to the second primary volume, an access request from the host to the primary volume is transferred to the second primary volume. Further, the second storage system stores write data received from the host and data of the first primary volume received from the storage system, into the second primary volume. Out of data stored in the second primary volume, the second storage system sends data determined by management information received from the first storage system, to the third storage system. --

**In the claims:**

- *In claim 10, between lines 6 & 7, insert -- a code that said third storage system stores said write data received from said first storage system into*

***said secondary volume, when data stored in said first primary volume is migrated to a second volume owned by a second storage system; --.***

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

With respect to **independent claims 1, 8, 9, and 10**, the claims are allowable over the prior art of record for the reasons set forth on page 11, line 9 through page 17, line 9 of the response received 6/07/2006. Also the applicants agree with the Examiner's Amendments stated above to overcome objections to the claims.

The telephone interview on June 22, 2006 with John Mattingly was held to discuss overcoming an antecedent basis issue in claim 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
